

## **F1.2 - ROLE OF INDIVIDUALS IN SHAPING HISTORY**

What role do individuals play in shaping history? Explain with examples.

Individuals play a very important role in shaping the world. Individuals can change the world for the better or for the worst. An example of changing the world for the worst is Hitler. Hitler was the ruler from 1933 to 1945, when he killed himself when he was surrounded by the ally troops. Hitler made the Jewish people go in camps where they were beaten, starved, and killed. Hitler killed over 2 million Jews. An example of changing the world for the good is when 9-11 happened and there were over 2 thousand firemen, police, etc. They all risked their lives to save the ones who would have died.
